Projects

Siege Master [Github](#) [Video](#)

Unity 3D, C#, PC, VR, Third person shooter, Tower defense

The game was built by using Top-Down based, Strategy pattern to manage Factory pattern & object pool, Command pattern, Open Close Principle and States machine concept. Also it is an endless wave survival, enemies never stop coming and you must defend your castle using your hero's weapons and special abilities, as well as placing towers.

Get it & Get out [Github](#) [Video](#)

Unity 3D, C#, VR, Grappling hook

The game made with features like destructible buildings, flocking AI and particle system. Also built by using Top-Down based and singleton. You must go around a city and bring the treasures to the gate of city before the lava destroying the city then go to next level.
